RTS 28 Report – 2017

Reporting data as at 31<sup>st</sup> December 2017

**Preamble**

MiFID II requires investment firms which execute client orders to summarise and make public on an annual basis, for each class of financial instrument, the top five execution venues in terms of trading volumes where they executed client orders in the preceding year and information on the quality of execution. Below please find GlobalCapital Financial Management Limited (hereinafter referred to as “GCFM”) annual RTS28 Report for trades executed during calendar year 2017.

**Top five execution venues**

In respect of all local listed securities, for all classes of instruments, comprising of Equities, Corporate Bonds, and Malta Government Stocks, GCFM executed all client orders on the Malta Stock Exchange, being the sole execution venue for such Maltese securities.

One has to bear in mind that GCFM executes all international orders through Bank of Valletta plc & Sparkasse Bank Malta plc, therefore relying on the “Best Execution Policy” of these third party Institutions. When executing client orders these Institutions will take account of a range of execution factors. These factors are considered in the initial selection of execution venues and during the ongoing review of performance of these execution venues. Ordinarily, total consideration, including price and cost, commands high importance in the achievement of best execution. However, there may be circumstances when greater importance is given to other execution factors.

Such factors and their relative importance will be determined by the characteristics of the order, mainly the prevailing market conditions, the characteristics of execution venues to which the client order can be directed, and the characteristics of the financial instruments which are the subject of the client order. Experience and commercial judgement play also an important part in the process to achieve best execution for the clients.
